

DESCRIPTION

Speaker made of recycled ABS and natural cork, making it a sustainable and environmentally friendly choice. The speaker has a power of 10W, which provides a clear and crisp sound. The speaker has a rechargeable battery, you can take it with you without having to always be connected to a power supply. Simply charge it before use and enjoy hours of music playback. In addition, this speaker has a hands-free function, which allows you to receive phone calls without having to hold your phone. The speaker connection is through a Type C port, which is a standard modern and efficient connection. The cable necessary for the connection is also included, so you do not have to worry about buying it separately. The speaker comes in an eco-design case, reinforcing its sustainable approach and making it an ideal choice for those who value ecology. It is an eco-friendly and practical option to enjoy your favourite music.
