

DESCRIPTION

The wireless speaker with a cork and bamboo body offers an exceptional listening experience with a natural and sustainable touch. With its sleek design and eco-friendly materials, this speaker integrates seamlessly into any environment. Plus, you can take your music with you in a convenient and environmentally friendly way, while enjoying exceptional sound on an aesthetically appealing device. Equipped with Bluetooth 5.0 technology, it allows you to wirelessly connect your compatible devices and play your favourite music with clear, crisp sound quality. Despite its compact size, this speaker has a power of 3W, ensuring surprisingly powerful and immersive audio. The built-in rechargeable battery gives you the freedom to enjoy your music for hours without worrying about cables. In addition, it includes a Type C cable for easy recharging. The wireless speaker comes in an ECO design box, demonstrating your commitment to sustainability and care for the environment.
